

# Session 4–Scenario's

## Scenario 3 Summary

Scenario 1

Scenario 2

Scenario 3

### Tap knowledge base

- published reports (establish bounds)
- experts (faculty, industry, consultants)
- estimate biological potential, scale to reality

### Model achievable management

- rotation age
- thins (0, 1, 2 and timing)
- volume and area constraints (labor & processing capacity)

### Know your economic tolerances

- allow someone else to pay too much
