
Using PdfMaps and OruxMaps for data collection on your pocket device

Jim Reed, PhD
Hydrologic Group
Jasper, OR
jimpreed@gmail.com

Avenza's PdfMaps app and the **OruxMaps** app
are free downloads from the Android Play Store.
PdfMaps also runs on iOS.

Other apps I use:

GPS Status to see how many satellites are in view,
and refresh the ephemeris.

GPS Essentials for background tracking and
georeferenced photos

GeoViewer from MrSid can load in 4GB of sid file
like NAIP aerials, and BLM merged topos
on ½ degree scale, but then you can add shp files
if in the same projection. No Query though.

On the PC, I use **Geosetter** to look at my tracks and georef photos
DNR GPS for converting to/from shp /kml
Mapinfo and **ArcGIS** for creating geo pdfs.
Geoviewer from MrSid to create geotifs

In the field I use a Samsung 7” tablet, my $10 LG Tracfone phone with GPS and GLONASS, a GPS watch and an old DeLorme waterproof handheld GPS ($300 + $250 software package)

With **PdfMaps** you can download direct from the app using the “Store” tab for nautical charts, recreation, topo..

For topo maps, get the latest geopdf from http://store.usgs.gov/
Then to map locator.
Choose a 7.5 min quad and download the map.

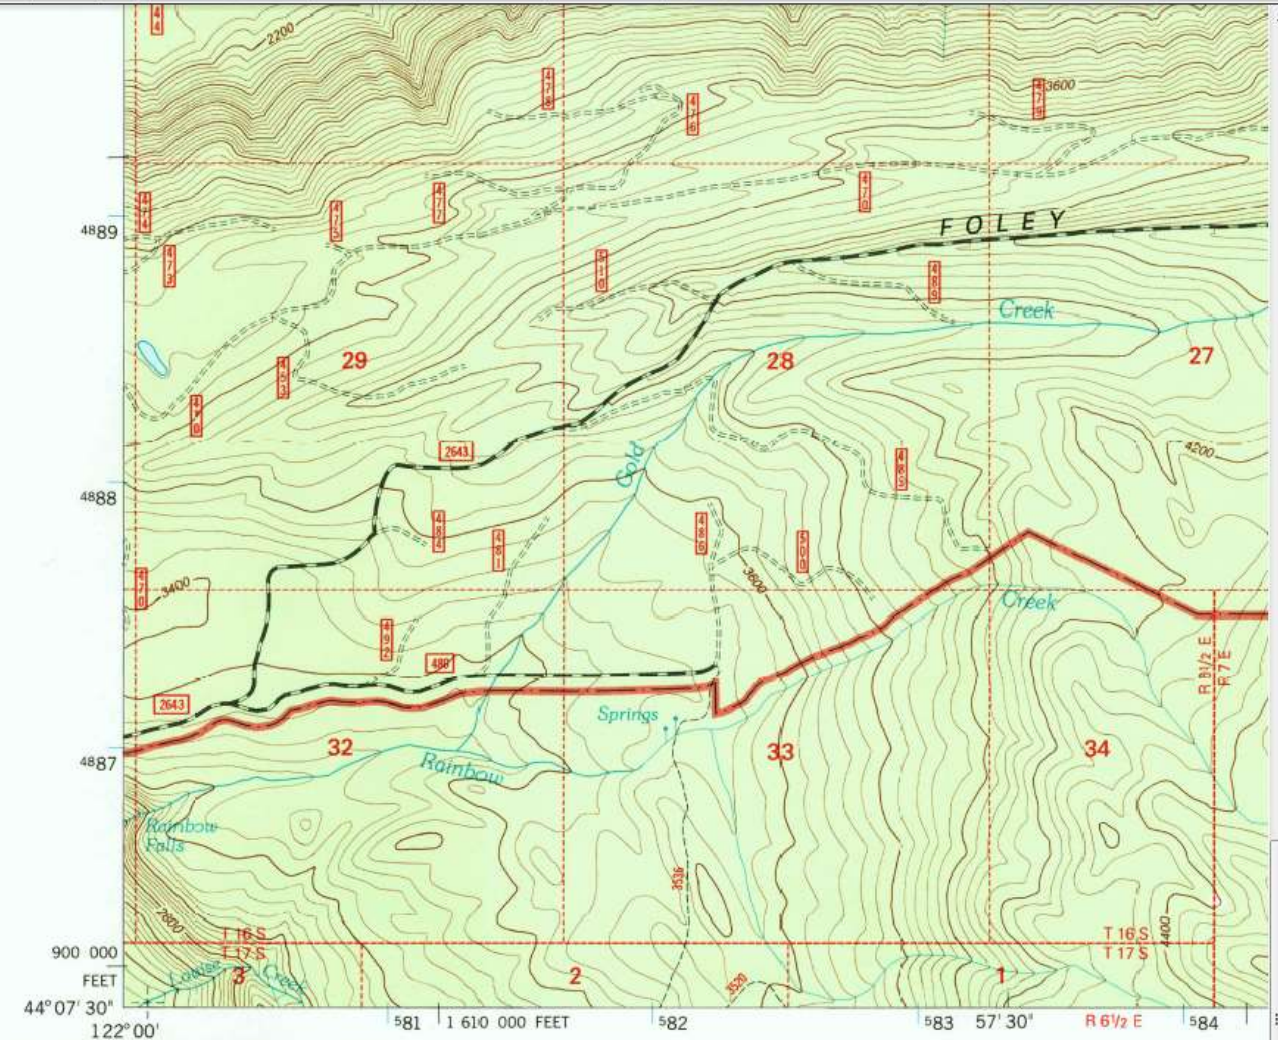
OR_Linton Lake_280524_1997_24000_geo.pdf - Adobe Reader
File Edit View Window Help
1 / 1 100% Tools Sign Comment Extended



Produced by the United States Geological Survey 1988
Revision by USDA Forest Service 1997

Topography compiled 1957. Planimetry derived from imagery taken 1995 and other sources. Public Land Survey System and survey control current as of 1997

North American Datum of 1927 (NAD 27). Projection and 10 000-foot ticks: Oregon coordinate system, south zone (Lambert conformal conic)
Blue 1000-meter Universal Transverse Mercator ticks, zone 10

North American Datum of 1983 (NAD 83) is shown by dashed corner ticks
The values of the shift between NAD 27 and NAD 83 for 7.5-minute intersections are obtainable from National Geodetic Survey NADCON software

UTM GRID AND 1998 MAGNETIC NORTH DECLINATION AT CENTER OF SHEET

21.90 x 26.76 in

Or go to TopoView:
http://ngmdb.usgs.gov/maps/TopoView/viewer/#
can get geotif, jpg, kmz, geopdf

Geotifs can be loaded into PdfMaps.
The advantage of geotif is the you draw on it on Paint*, or add other layers in GIS

In the very near future, you will be able use the geopdf in ArcGIS 10. See TopoTNMStyleTemplate Tailoring Instructions.pdf July 2015

After a while, you'll notice that you have run out of space on your phone. It may be due to the "hidden" Avenza formatted Pdf files on the internal storage card, even though you stored all of your pdfs on the external card.

Don't just delete the file from your storage card, delete them from the app . Use the app DiskUsage to find the culprits.
