

# 6th Field Technology Conference

Data Collection in Forestry,  
Fisheries and Natural Resources

November 7-8 • Portland, Oregon

## Sponsor and/or Exhibitor Opportunities at the 6th Field Technology Conference

This technology-focused conference brings the forestry and aquatic monitoring communities together to share best practices, learn about the newest in field technologies, and share field tested expertise in collecting and using data in the field. By combining these communities, we expect an audience of 150+ at the Holiday Inn Portland Airport in Portland, Oregon on November 7 – 8, 2017. Historically, this conference has attracted forestry and fisheries field managers from the public and private sectors, tribes, non-profits and municipalities.

# Why Should You Sponsor and/or Exhibit?

- Cultivate and strengthen industry relationships.
- Interact with key decision-makers.
- Reinforce your continued commitment to forestry and fisheries.
- Showcase your organization to attendees.
- Increase brand awareness within the forestry and aquatic communities.
- Demonstrate your prominence as an industry thought leader.
- Sponsors also receive the first opportunity for our limited exhibit space.
