<sup>2</sup>Department of Soil Science, the University of Reading, Whiteknights, Reading, England

This is a sample of the body of the abstract. Indicate which of the four sessions your abstract would best match. Please pay strict attention to the preparation of your abstract. The abstract should be as informative as possible and cover key areas including purpose, scope, methods, results, conclusions, and recommendations.

Limit your abstract to one page with 1-inch margins – top, bottom, and sides. Font size must be at least 11 points. Calibri is the suggested font. One full page will be approximately 250-500 words or contingent on the number of authors, affiliations, and paragraph breaks.

Prior to sending your abstract, be certain to proof one last time, including all author information. We are looking forward to your abstract submission and later presentation. Thank you.
