

Assisted Migration PRACTITIONER SURVEY

ONLINE Survey

The purpose of this survey is to **understand practitioner perspectives** on adaptive management strategies for **reforestation under climate change**, such as assisted migration.

<https://westernforestry.org/private-conferences/survey-manager-perspectives-on-reforestation-practices-and-assisted-migration>

Survey RESULTS

Survey results will be collated and **published in a technical report** to support the development of effective adaptive management strategies to sustain forests into the future.
